HYLAN, ILL, LEAVES NEW YORK HURRIEDLY FOR THE WEST

REPORT ARREST OF RAFET PASHA BY BRITISH ORDER

Kemalists Continue to Press Demands for Evacuation of Capital.

ALLIES REFUSE TO GO.

Gen. Harington, to Keep Peace, Yields Many Points to Turks.

ATHENS, Nov. 13 (United Press).—Rafet Pasha, Governor of Constantinople, has been arrested by British soldiers, according to an unconfirmed despatch from Greek sources to-day.

CONSTANTINOPLE, Nov. 13.—The situation here is still extremely critical. Undisguised apprehension exists over the renewed demands of the Kemalists, and five days' negotiation and temporizing has failed to alter the determination of the Nationalists to obtain a firmer grip on the capital, even before the Lausanne conference is concluded.

The Ankara Government continues to press its demand for the evacuation of the Allied zone and naval forces, but there is no indication that the Allies intend to yield on this vital point; they are fully conscious that their withdrawal would imperil the lives of the whole Christian population in the capital and Asia Minor.

In their desire for peace the British are conceding every possible demand to the Turks. The latest concession is abolition of Allied censorship over Turkish newspapers and withdrawal of supervision over the Constantinople-Angora telegraph lines and other administrative machinery.

Rafet Pasha, Nationalist Governor, now has an equal voice in all matters relating to order in the city. He has been invited to draw up police plans which would be acceptable to Ankara, but the Allies will insist upon the presence of passport until after the peace conference. The Sultan, meanwhile, has not abdicated. The head of the Muslim world remains in the Yildiz Palace. He receives visitors and discharges his usual duties.

He participated in the usual five-day seclusion and acknowledged the presence of foreign spectators. The sovereign was attended by his customary military uniform on Commander-in-Chief of the Turkish Army, although the Ankara Government insists he has been shorn of all but spiritual authority.

Alli Kemal Bey, editor of the anti-Nationalist newspaper Sabah, who was arrested at Izmir on the charge of subversive action, was killed by a mob Nov. 7, after having been officially condemned to death. He was taken before Gen. Nureddin Pasha, Military Governor of Smyrna, who pronounced the death sentence, "in the name of the Turkish nation as a traitor to the country."

Before he could be hanged, however, a mob of women pounced on

665 Autos, "Pleasure" Vehicles, Are Owned and Maintained by N. Y. City for Use of Officials

Cars Costing \$604,223 Operated for Public Departments.

MAYOR CONTROLS 519.

Promises of Retrenchment in Costly Luxury Unkept by City Administration.

Although the Hylan Administration severely criticized the Mitchell regime for its extravagance in the purchase and operation of expensive motor cars for the individual use of city officials, the Hylan Administration, it appears from an investigation made by The Evening World, is equally if not even more guilty of the same offense.

Not only has the Hylan regime failed utterly to live up to its campaign pledges of economy in the spending of taxpayers' money for high powered and expensive motor cars but the statement issued in 1920 to the effect that the municipal tax car service would put an end to the use of costly and commodious motor vehicles for city Commissioners, their deputies and subordinates has not materialized.

Perusal of the records of the Motor Vehicle License Bureau of the State reveals a total of 665 motor cars owned by the city and registered tax free with the State. Computation of the cost prices of these machines, as contained in the records of the Motor Vehicle Bureau, totals \$604,223. All of the machines are listed as "pleasure" vehicles. No record of commercial trucks, trailers or motors for industrial purposes was taken.

NO RECORD OF COST OF TWENTY-EIGHT CARS.

Of the total number of 665 cars registered, 519 are operated by departments directly under the jurisdiction of the Mayor himself and 146 cars are in use by departments other than those controlled by the Mayor. The cars registered under the Mayor's departments show an outlay of \$447,267, whereas twenty-eight cars of the Department of Street Cleaning for which no cost price was obtainable. The cars registered under departments other than the Mayor's total \$156,956, besides eight cars under the control of the Borough President of Manhattan, for which no cost price was given on the official records of registration.

It will be recalled that Mayor Hylan was not in office very long when he had some caustic comment to make about city officials traveling to and from their offices in city-owned motor cars. As early as May, 1918, \$4,500 was appropriated for an automobile for the Police Commissioner, who only a few weeks before had stated that "too many big cars are being used

WARD'S COUNSEL PROTEST AS TRIAL DATE IS DELAYED

Skills to Urge Dismissal of Wealthy Slayer Unless Weeks Acts Next Week.

Attorneys for Walter L. Ward, under \$50,000 bail to answer an indictment for the killing of Clarence Peters, a derelict former sailor, May 17 last, appeared before Judge Joseph J. Moynihan at White Plains to-day to argue a motion to set a date for trial of the case.

Ward, jaunty and cheerful, appeared in the court room with five lawyers, Messrs. Rabenold, Scribner and Campbell, of Rabenold & Scribner; former Justice J. N. Mills, and John F. Brennan, who was the lawyer for Mrs. Anne L. Stillman.

Mr. Mills was spokesman. District Attorney Weeks asked for an adjournment for one week. Mr. Mills taunted him with being afraid to put the case to trial at this term and announced he would offer a motion to dismiss the indictment a week from to-day unless Mr. Weeks "either fished, cut bait or rowed ashore."

U.S. SUPREME COURT BARS ALL JAPANESE FROM CITIZENSHIP

Hawaiian Resident Denied Naturalization in Test Case.

CLAIMED TO BE WHITE.

Seattle Japs Also Refused Papers and Cannot Form Partnership.

WASHINGTON, Nov. 13.—Japanese are not white, within the meaning of the American law, and are not entitled to citizenship in the United States, the Supreme Court held to-day.

The high court affirmed a decision of the California Circuit of Appeals in a test case brought by Takao Ozawa of Honolulu, who claimed to be "white" and was eligible for naturalization as an American citizen.

At the same time the Court upheld the Washington Supreme Court in denying citizenship to Takaji Yamashita and Charles Hikocho of Seattle.

The decision held that the two Japanese were not entitled to naturalization under the United States laws and therefore could not enter a business partnership.

The Supreme Court's decision in these cases has long been awaited, particularly on the Pacific Coast, where anti-Japanese feeling exists.

Ozawa contended he was entitled to American citizenship as a descendant of the White Tribe of Asia. He started his fight for citizenship several years ago in Hawaii, but was defeated in the courts there and also in higher courts in California.

Ozawa contended he was educated in Hawaii since he childhood and was educated in the American schools there. His children, now attending

BELLAMY STORER DIES IN HOTEL IN PARIS

Was One Time U. S. Ambassador to Austria-Hungary.

PARIS, Nov. 13 (Associated Press).—Bellamy Storer, long prominent as an American diplomatist, died last night in a hotel here, where he was staying with Mrs. Storer.

Bellamy Storer was American Ambassador to Austria-Hungary in 1902-1903 and before that had been Minister to Belgium and Spain. He represented the first Ohio District in the 52d and 53d Congresses.

He was born in Cincinnati in 1847 and was graduated from Harvard College in 1867. He entered the law two years later and was appointed assistant United States Attorney of the southern district of Ohio.

A spite quarrel between neighbors is believed by the Somerset County authorities to account for the present effort of Mrs. Nellie L. Russell, a dairy farmer, to discredit Mrs. John Gibson in her eyewitness story.

The charges made by Timothy N. Proffert, attorney for the widow of the actor, that William Phillips, who said he saw Mrs. Hall enter her home alone at a little after 2 o'clock on the morning after her husband was last seen alive, is unworthy of belief because he was once indicted for perjury in New York, is not important, according to Deputy Attorney General Egan.

Mayor Hylan, Ill, Leaves City For Western Trip and May Visit Pacific Coast with Whalen

Indisposed Ever Since Gassing at Lexington Avenue Subway Fire—May Meet Murphy and Al Smith at Resort.

Mayor Hylan and Grover A. Whalen, his Commissioner of Plant and Structures, left on the Twentieth Century Limited at 2:20 o'clock this afternoon. They will make their first stop at Chicago, likely visit Charles F. Murphy, Tammany leader, who is at French Lick, Ind., where he rests after every strenuous campaign, and then, perhaps, take a train for the Pacific Coast.

If the Mayor and Whalen decide to visit only Chicago and French Lick they will be back to this city within ten days. If they visit the coast they expect to be away at least three weeks.

Friends of Mayor Hylan have believed for some time that he is in great need of a long rest. First indications of the Mayor's condition became apparent while his wife, daughter and son-in-law were in Europe.

At that time the Mayor suffered from what appeared to be attacks of nervous indigestion. One of considerable for the recent condition of the Mayor nothing was written about his condition at that time. The Mayor told newspaper men that he feared published accounts of his indisposition might cause unnecessary anxiety, particularly to his wife. The Mayor's wishes were respected.

It is believed the Mayor's ill health (Continued on Second Page.)

SERIOUS OPERATION ON MRS. HALL'S KID HALTS QUESTIONING

Woman Denies Mrs. Gibson Was at Murder Scene, Widow's Counsel Says.

(Special From a Staff Correspondent of The Evening World.)

NEW BRUNSWICK, N. J., Nov. 13.—Henry Carpenter, cousin and next door neighbor of Mrs. Frances Stevens Hall and a central figure in the investigation of the Hall-Mills murders, was operated upon at the Middlesex General Hospital here for appendicitis. He is a member of the New York Stock Exchange firm of McElave & Co., No. 57 Exchange Place.

According to members of his family, he was taken acutely ill last night and was hurried to the hospital this morning as soon as arrangements could be made. Dr. Lawrence H. Hays, a member of the group out of which Mrs. Gibson picked a man who was said, Mrs. Hall's companion when she saw them at the Phillips farm, Sept. 14.

A spite quarrel between neighbors is believed by the Somerset County authorities to account for the present effort of Mrs. Nellie L. Russell, a dairy farmer, to discredit Mrs. John Gibson in her eyewitness story.

The charges made by Timothy N. Proffert, attorney for the widow of the actor, that William Phillips, who said he saw Mrs. Hall enter her home alone at a little after 2 o'clock on the morning after her husband was last seen alive, is unworthy of belief because he was once indicted for perjury in New York, is not important, according to Deputy Attorney General Egan.

Phillips more than a month ago voluntarily told the authorities here of the indictment. He explained that in accordance with instructions to be given by Detective Captain Sullivan of the East 67th Street station, he had agreed to fall in with the plot of a band of thieves who planned a robbery at the Rockefeller Institute.

According to County Detective George Totten of Somerset, an anonymous message was received last May by the office in consequence of which he went to Mrs. Russell's place and found a calf, a pig and a cow dead and a cow dying. A veterinarian said they had been forced by starvation to eat

TOWNS WHOLLY LEVELLED BY QUAKE AND TIDAL WAVE; THOUSANDS ARE HOMELESS

Starvation, Pestilence and Hunger Claiming Many More Victims—Relief Supplies Delayed by Breakdown in Transportation Lines—Eyewitness Tells of Devastation.

(Copyright, 1922, by United Press Association.)

SANTIAGO, Chili, Nov. 13.—Fourteen hundred persons lost their lives in a devastating earthquake and tidal wave which rent the coast of Northern Chili early Saturday, according to the most accurate available estimates to-day.

Starvation, pestilence and exposure are claiming additional victims in the wake of the disaster, and relief caravans are pushing in to aid homeless inhabitants of the stricken territories.

Communication with the shattered towns along the coast from Valparaiso to Antofagasta, the district which bore the brunt of the shock and the upheaval of the Pacific, was still disrupted, but couriers brought word to the capital of whole villages levelled by the quake, with survivors, wounded, lying by hundreds in the streets.

Vallepar, Copiapo and Coquimbo, little coastal towns, suffered most from the great shock at 12:30 A. M. Saturday. They were inundated by a rush of the Pacific which followed the first earth tremor. But little villages further back in the hills appear also to have suffered terrible loss of life and destruction of property which it may never be possible to estimate. There were reports that whole communities were wiped out.

The largest quake, felt over the entire South American continent, and registered on seismographs all over the world, lasted for over three hours, although it was perceptible to human senses only two minutes. That was sufficient to drive those whose houses withstood the shock in terror to the streets, where many, in coastal villages, were drowned by the terrific tidal wave which lifted its millions of tons of water a thousand feet over the unprotected houses along the shore.

Thousands slept in the open last night, afraid to return to tottering houses, or even to those that had withstood the shock, for fear of a repetition of the quake. Slight tremors were felt Sunday afternoon, spreading panic among the natives for 500 miles along the coast.

Couriers came to Santiago to-day from Vallepar and Copiapo to arrange for caravans to take food and medicines to the stricken towns. The former place, they declared, was practically obliterated. All the buildings, except the schoolhouse, lay in ruins. Half of the buildings in Copiapo were hurled from their foundations by the shock, the couriers reported. Those that remained standing were uninhabitable.

Injured and sick are being treated in the streets and public squares. Starvation is already in sight at Vallepar, while disease has begun to spread among the quake victims, who are huddled together in rude shelters in the plazas.

Ramon Alcayaga, a prominent Chilean engineer, was one of the first to bring a reliable eyewitness story of the desolation and disaster that were spread through the north. He declared contagious diseases are spreading like wildfire and that many are threatened with death from exposure and hunger.

Arriving at La Serena, Alcayaga told a dramatic story of the destruction of the jail at Vallepar, which, as usual, was crowded with prisoners sentenced for minor offenses. The shock hurled down the adobe walls of the little prison, injuring many of the frightened inmates. Those able to do so rushed from the jail, but made no attempt to flee further, remaining shaying in terror in an open space near the ruins of their late prison. Troops to-day were standing guard over the prisoners, with no place in which to lock them up.

La Serena, as the largest city is the immediate vicinity of the devast-

DRY WORLD TO PROTECT AMERICAN PROHIBITION NOW PLANNED BY W.C.T.U.

Delegates From Forty Nations Plan at Philadelphia Fresh Out-look on Liquor.

PHILADELPHIA, Nov. 13.—The entire world must be made dry as a safeguard to American prohibition, as a missionary enterprise and for perpetual peace, was the byword of the 2,000 delegates to the eleventh convention of the World's Women's Christian Temperance Union Convention to-day.

While ribboned delegates from forty nations and every State in the Union pressed the results of prohibition in this country and made plans to dry up the entire world when the first business session opened this morning.

'LIGHTNIN' FRANK BACON HAS NERVE BREAKDOWN, FORCED TO QUIT SHOW

FRANK BACON

Expected to Be Back in Play Soon. Taken by O'Hara, Old Friend, CHICAGO, Nov. 13.—Frank Bacon, veteran actor and star in "Lightnin'", is forced to abandon his part temporarily, due to a nervous breakdown.

Bacon probably will return to the cast before the play goes to Boston next month, according to John L. Golden, producer. He will remain in a Chicago hotel. Meanwhile this part will be played by John D. O'Hara, an old friend of Bacon at the latter's request.

The actor, who has been thirty-seven years on the stage, is fifty-eight years old, and has played the title role in "Lightnin'" for four and a half years. Mr. Bacon has been in ill health for some time, but has insisted on appearing regularly in his play despite his failing condition, according to relatives. He became worse Saturday and a physician attended him as he went through the performance that night. Immediately afterward he was taken to his hotel, his play will continue.
